

Glowing Hearts™

Pieris japonica 'Piesid2'
GLOWING HEARTS™

PPAF, CPBRA

The Pieris that practically glows!

Pieris japonica 'Piesid2' GLOWING HEARTS™ is like no other Pieris on the market!

Its glossy evergreen foliage emerges in scarlet hues so vivid, it almost glows in the garden. In early spring, GLOWING HEARTS™ is covered with cascading racemes of pink, bell-shaped flowers. This versatile Pieris displays equally well planted en masse, in borders or beds, as a stand-alone garden specimen, or in a patio pot.
